Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 September 2003.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.

Response to Amendment

Applicant's arguments with respect to claims 1, 2, 4, 5, 14, 17, 19-24 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

AS
11/17/13
Claims 1, 2, ⁴5, and 19-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Campbell et al US Patent 5,067,962 in view of Gendler US Patent 5,092,887.

Campbell et al discloses a naturally occurring bone-to-ligament-to-bone attachment (11) comprising two bone blocks (14 & 15) shaped into a dowel that has a tapered shape (see Fig. 3). The harvested ligament comes from a bovine ligament (see col. 2, lines 55-60).

Regarding claim 4, the grooves are inherently formed when an interface screw digs into the bone during implantation.

Regarding claim 5, see openings 25 & 26 in Fig. 3.

Regarding claim 24, see col. 3, lines 37-45.

Gendler discloses a naturally occurring bone-to-ligament-to-bone attachment comprising two bone blocks attached by a ligament. The bioprosthesis can be made of autografts, allografts or xenografts (see col. 1, lines 26-36). The naturally occurring tendon is derived from the patellar tendon and from the tibial area (see col. 1, lines 37-45).

Art Unit: 3738

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the xenograft structure of the Campbell et al reference with the naturally occurring autograft of the Gendler reference in order to maintain the biocompatibility of the naturally occurring ligament.

Note: This type of prosthetic devices will reduce the chance of a reaction of the body.

Allowable Subject Matter

Claims 14 and 17 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
